

Manual

Labels

Current Song: Displays which song is currently selected in the program.

Buttons

Previous Button: Sets the previous song in the playlist as the current song.

Next Button: Sets the next song in the playlist as the current song.

Play/Stop Button: Starts or stops playback of the current song.

Search button: Press to search for a song.

- Search for the first portion of a song name. For example, searching "So" will find song names starting with "So", like "Song1" and "Songtastic".
- The search is not case sensitive.

Add song button: Opens a dialog allowing you to select a song to add. You can only choose .wav files.

Help button: Opens this page.
